

NeuroMetrix Reports the Launch of the Quell™ Health Cloud and an Updated iOS App

WALTHAM, Mass.--(BUSINESS WIRE)-- NeuroMetrix, Inc. (Nasdaq: NURO), an innovative health care company that develops wearable medical technology and point-of-care tests to help patients and physicians manage chronic pain, nerve diseases, and sleep disorders, announced today the launch of the Quell Health Cloud and availability of an updated version of the Quell Relief App on the Apple App store. The updated app allows consumers to set up accounts on the Quell Health Cloud where their data is automatically backed-up to a secure storage. This eliminates consumer worry about losing their therapy or sleep data, and allows them to review their data on multiple mobile devices.

"We are excited with the potential of the Quell Health Cloud to unlock even greater potential for Quell," said Shai N. Gozani, M.D., Ph.D., President and Chief Executive Officer of NeuroMetrix. "Health Cloud brings Quell to the center of the digital health revolution, and we expect that the data captured will further advance the benefits of the device for people with chronic pain and will also contribute on a broader basis to our understanding of chronic pain and sleep."

About NeuroMetrix

NeuroMetrix is an innovative health-care company that develops wearable medical technology and point-of-care tests that help patients and physicians better manage chronic pain, nerve diseases, and sleep disorders. For more information, please visit www.NeuroMetrix.com.
