NeuroMetrix, Inc. Announces Date for 2014 First Quarter Financial Results Conference Call

WALTHAM, Mass.--(BUSINESS WIRE)-- [NeuroMetrix, Inc.](#) (the "Company") (Nasdaq: NURO), an innovative health care company that develops wearable medical technology and point-of-care tests to help patients and physicians manage chronic pain, nerve diseases, and sleep disturbances, today said it plans to issue its 2014 first quarter financial results before the opening of the market on April 24, 2014. The Company will host a conference call at 8:00 a.m., Eastern Time on April 24, 2014 to discuss its financial results as well as business developments affecting the Company.

The conference call may be accessed in the United States by dialing 866-515-2913 and using the confirmation code 40938233. Internationally, the conference call may be accessed by dialing 617-399-5127 and using the same confirmation code. The earnings press release and accompanying condensed financial statements will be accessible from the Company's website at www.NeuroMetrix.com under the "Investor Relations" tab.

A replay of the conference call will be available starting two hours after the call by dialing 888-286-8010, domestically and 617-801-6888, internationally. The confirmation code to access the replay is 46916035. The replay will be available for two weeks after the conference call.

About NeuroMetrix

NeuroMetrix is an innovative health-care company that develops wearable medical technology and point-of-care diagnostics that help patients and physicians better manage chronic pain, nerve diseases, and sleep disorders. The Company has a major focus on diabetic neuropathies which affect over 50% of people with diabetes. If left untreated, diabetic neuropathies trigger foot ulcers that may require amputation and cause disabling chronic pain. The annual cost of diabetic neuropathies has been estimated at \$14 billion in the United States. The company markets the SENSUS™ Pain Management System for treating chronic pain, focusing on physicians managing patients with painful diabetic neuropathy and other forms of chronic pain such as fibromyalgia, shingles (post herpetic neuralgia), and conditions involving both chronic pain and disturbed sleep such as restless leg syndrome. The company also markets the DPNCheck® device, which is a rapid, accurate, and quantitative point-of-care test for peripheral neuropathies such as diabetic neuropathy. This product is used to detect neuropathies at an early stage and to guide treatment. For more information, please visit <http://www.NeuroMetrix.com>.
