

NeuroMetrix to Present at Rodman & Renshaw Annual Global Investment Conference

WALTHAM, Mass.--(BUSINESS WIRE)-- [NeuroMetrix, Inc.](#) (Nasdaq: NURO), an innovative health care company that develops wearable medical technology and point-of-care tests to help patients and physicians manage chronic pain, nerve diseases, and sleep disorders, today announced that Shai N. Gozani M.D., Ph.D., President and Chief Executive Officer, is scheduled to speak at the Rodman & Renshaw Annual Global Investment Conference at the New York Palace Hotel, New York, NY on September 8-10, 2014. Dr. Gozani intends to provide an update on the Company's business activities including the SENSUS® Pain Management System for chronic pain and sleep, and the Company's emerging consumer healthcare initiative.

NeuroMetrix's presentation is scheduled for Tuesday, September 9, 2014 at 9:10 am (Eastern Daylight Time) in the Kennedy II Salon Room, 4th Floor. A live audio webcast will be available on the investor relations section of the corporate website - <http://www.NeuroMetrix.com>. This webcast will be archived after the live event.

About NeuroMetrix

NeuroMetrix is an innovative health-care company that develops wearable medical technology and point-of-care tests that help patients and physicians better manage chronic pain, nerve diseases, and sleep disorders. The Company has a major focus on diabetic neuropathies, which affect over 50% of people with diabetes. If left untreated, diabetic neuropathies trigger foot ulcers that may require amputation and cause disabling chronic pain. The annual cost of diabetic neuropathies has been estimated at \$14 billion in the United States. The Company markets the SENSUS® device for treating chronic pain, focusing on physicians managing patients with neuropathic pain such as painful diabetic neuropathy. The Company also markets DPNCheck®, which is a rapid, accurate, and quantitative point-of-care test for peripheral neuropathies such as diabetic neuropathy. This product is used to detect neuropathies at an early stage and to guide treatment. For more information, please visit <http://www.NeuroMetrix.com>.
